

Tomorrow is the deadline for low-income seniors to take full advantage of the government's \$600 prescription drug benefit program. Low-income seniors (individuals earning less than \$12,920 per year or couples earning less than \$17,321 per year) covered under Medicare but not under other government programs are eligible to register for the annual credit. Seniors enrolled in Medicaid without having a prescription drug benefit are also eligible to apply, as well as those under 65 receiving Medicare because of a disability. To receive the full \$600 credit, please call 1-800-MEDICARE before midnight tomorrow.
